I have previously served on the board of Emerald Green nine years through August 2017 as Vice President and then President. I also was the head of various committees.

I was the president of both the EGPOA and the EGLLMW from 2011 -2017.

In addition I have served on the board of directors of three public corporations over the past 30 years.

I have been involved in the import business for the past 50 years in both Europe and the Far East. At the present time I am President and CEO of a major import company doing business in the US and Hong Kong.

My import experience has enhanced my ability to deal with people and situations not only all over the world but domestically.

If elected to the board for another term it would be my top priority to work with the other board members to make Emerald Green the community in which we are all proud to live.

I feel it is the responsibility of the board of directors working along with our resident members to move ahead for the overall benefit of all the homeowners and the community.

I have been a resident of Emerald Green since 1984 and want to see it remain a gem in the Catskills for our children and grandchildren.
