My name is Miriam Raport, I have lived in this community for the last 25 years. I am an experienced physician specializing in Geriatrics.

I have worked very hard to care for my patients, their families as well as be a role model and teacher for medical residents, nurses and other hospital staff in both private practice and hospital academic settings for the last 25 years.

I would like to offer my strengths in community service. My field requires strong listening, empathy and communication skills. I deal effectively and sensitively with multiple generations and cultures. I work closely and lead an interdisciplinary team addressing medical challenges, management of insurance, legal issues and financial matters. Geriatrics brings together care for the whole family.

We are a community that should care for each other. I want to see us use our combined strengths to build a transparent, vibrant community at Emerald Green that honors each culture and generation that resides here.

I believe we can more efficiently leverage the talent in this community to build increased social interaction for both young and old. I love this place for its nature, its peace and the wonderful people I have met here. I would be honored to become a board member and help it move forward.
